

FFT Grade High Intensity Conspicuity Tape

Product Summary

Jammy FFT Grade Conspicuity Tape uses the most time tested conspicuity technology. It is a glass bead reflective product with a silver/red daytime color, produced with two thin layers enclosing retroreflective glass beads. This series has great flexibility, durability and strike resistance. Exceeding DOT-C2 and FMVSS 108, Jammy specifies an Acrylic (PMMA) face film for the best visibility and long term UV resistance. Available in all standard sizes and cuts; also available in solid red continuous rolls and custom widths. Custom logo printing available. FFT Tape is and our most economical option and our most popular seller.

FFT Series Features:

- 300 Candela Max Reflectivity, High Angle Visibility
- Pressure Sensitive Adhesive with Paper Liner
- Double Layer Flexible Film Design
- PMMA Face Film for Enhanced UV Stability
- 7 Year Field Performance Rating
- Silver / Red Daytime Color
- Highly Economical

Specifications and Certifications:

Durability	7 Years, when installed properly
